

PLANMECA

Planmeca Lumo dental stool

Optimum support for all users

Planmeca dental stools are anatomically designed to provide optimum support and a high degree of comfort. The different models cater to diverse user needs. Easily accessible adjustment levers allow effortless adjustments while seated without distraction from the treatment.

PLANMECA

A form that follows you

Our anatomically designed Planmeca Lumo™ is an excellent ergonomic choice among dental stools. Its smoothly rotating wheels and multitude of adjustment possibilities ensure optimal working positions for users of all heights and sizes. The stool provides outstanding support and comfort even during the longest workdays.

PLANMECA

Complete adaptability

Planmeca Lumo moves smoothly on all kinds of floors. The stool's forward-tilting seat minimises the strain and pressure on thighs and its flexible seat slider ensures that larger users also have enough space.

Optimal support for the back

With a backrest that provides lower back support for users of all sizes, Planmeca Lumo has been designed with comfort and ergonomics in mind. The synchronised backrest follows the user's every move when enabled, and its height can be flexibly adjusted.

Perfect match with Planmeca dental units

With its distinctive and stylish design, Planmeca Lumo is a natural match with all Planmeca dental units. The stool has two upholstery options (Comfy and Ultra Relax) that are both available in a wide range of colours.

PLANMECA

Dental unit upholsteries

Unmatched comfort for patients

Planmecca dental units stand out. They are equipped with beautiful dental unit upholsteries that provide comfort and give clinics a personal touch – leading to improved treatment outcomes. Both upholstery options are available in a wide range of inspiring colours.

Two choices for enduring comfort

Ultra Relax™

Made of extremely durable artificial leather and viscoelastic memory foam, our Ultra Relax™ upholstery adapts perfectly to a patient's body shape – allowing them to stay relaxed even during the longest treatment sessions.

Comfy™

Our Comfy™ upholstery is made of durable artificial leather. Its thin shape makes it easy for users to reach the treatment area, while its seamless design ensures easy upkeep and enhanced infection control.

PLANMECA

Stand out with colour

Our dental unit upholsteries come in an extensive selection of vibrant colours. There is something for everyone – allowing you to find the exact tone to perfectly complement the rest of your clinic.
